BACHELOR OF SCIENCE Biology – Marine (2015)

Mindanao State University - Iligan Institute of Technology

Andres Bonifacio Ave, Iligan City, 9200 Lanao del Norte | Alumni

BACHELOR OF SCIENCE Computer Science - Software Engineering

Mindanao State University - Iligan Institute of Technology

Andres Bonifacio Ave, Iligan City, 9200 Lanao del Norte | Current

SCHOOL PROJECTS

Title: Medical Alarm Mobile Application (MEDALERT)

Background: HTML, CSS, SQLite, JavaScript

Details: This mobile app will remind the user when to take variety of medicines during different intervals.

Title: Student Interactive System Programming

Background: Python, HTML, CSS, MySQL, PostgreSQL, etc.

Details: This system is like Stack Overflow, it is designed to let students ask questions about different fields of study. It enables students of IIT to help each other by providing assistance in their study. Students can follow other students for their updates. They will also be connected through their interests which are categories equivalent to the different fields of study. It also has live chat feature where students will see who's online and can have a direct message. | ongoing
